

SAMMAN BHETWAL

201-887-8818 sammanbhetwal2025@gmail.com [Linkedin](#) [Github](#) [Portfolio-website](#)

Passionate and persistent software developer who approaches problem-solving with a human-centered mindset. Believing in how we build matters just as much as what we build—empathy is not an afterthought but a guiding principle in my process. With a strong focus on quality, I take care in every aspect of development, bringing a startup mindset, adaptability, and a commitment to delivering robust, high-quality software.

Technical Skills

Languages: C++, JavaScript, TypeScript, Java, Java, Python, C, HTML/CSS, Prolog, Scala

Technologies/Frameworks: ReactJs, VueJs, SQLite, MongoDB, Node.js, Express.js, Redux, Tailwindcss, PySpark

Developer Tools/Methods: GitHub, VS Code, Google Cloud Platform, Android Studio, Figma

Certifications: Microsoft UX Design Professional Certificate, AWS Certified Cloud Practitioner

Experience

Himalaya WebWorks

Full Stack Developer

05/2023 – Present

- Partnered with designers to translate mockups into production-ready interfaces, ensuring responsive design and accessibility across devices using React and Tailwind CSS.
- Developed and integrated 10+ microservices into full-stack MERN applications, optimizing performance and enhancing business logic for thousands of users.
- Managed AWS infrastructure (EC2, S3, RDS, CloudWatch) for 5 production apps with 99.9% uptime, and led 30+ Agile sprints using Jira, improving team velocity and on-time delivery rate by 20%.

Front End Developer Intern

02/2022 – 04/2023

- Designed and prototyped user flows and interfaces for 20+ client websites, aligning closely with stakeholder needs and improving usability metrics.
- Built responsive and interactive UI components using HTML, CSS, and JavaScript/TypeScript, boosting site engagement and reducing bounce rates.
- Utilized React and Redux to implement dynamic features across web applications, reducing page load times and improving application scalability.

Ramapo College of New Jersey

ITS Student Aide

02/2022 – 05/2025

- Resolved 1,000+ technical support tickets with patience and empathy, effectively communicating with users to diagnose and address issues related to user accounts, system maintenance, hardware upgrades, and software installations.

Resident Assistant

02/2023 – 05/2025

- Led and supported a residential community of over 1,000 residents, trained 15+ new RAs, and managed administrative tasks and over \$4,000 in programming funds to successfully plan and execute 50+ community-building events.

Projects

Roadrunner Mart | *JavaScript, ReactJs, Express, MongoDB, NodeJs, Redux, Github, Figma*

[Code](#)

- Built a responsive full-stack microservices-based e-commerce B2B platform with database integration (MongoDB) to support dynamic product listings, user accounts, and secure transactions with Stripe.
- Architected a modular backend with 50+ RESTful APIs supporting user interaction, inventory control, and data insights through a custom dashboard.
- Designed a high-fidelity prototype with clear information architecture, visual hierarchy, and effective calls to action.

Glee-Share Laughter | *JavaScript, ReactJs, Express, MongoDB, NodeJs, Redux, Github, Figma*

[Code](#) | [Video](#)

- Designed and implemented an end-to-end social platform that encourages emotional well-being by allowing users to share memes and positive content.
- Developed a responsive front-end and integrated 15+ RESTful APIs with secure authentication, dynamic routing, and accessibility-tested UI.
- Won the Social Good category at HackRU 2023 for solving a real-world problem with thoughtful web architecture designed for real-time user interaction.

Education

Ramapo College of New Jersey

Expected: 06/2025

Bachelor of Science in Computer Science

Computer Science Courses: Data Structures, Web Development, Analysis of Algorithm, Operating System, Software Design, Object-Oriented Programming, Organization of Programming Languages

Data Science Courses: Data Analysis in Python, Data Visualization, Machine Learning, Big Data
